1. **Sign-in sheet** – This sheet should be passed around at the event to collect name and contact information. Email addresses are particularly important as most of our materials are sent via email. Please return sheets to us at the address included at the bottom of the page.
2. **Fact sheet** – This double-sided handout is a description of the climate and energy policy as well as an overview of global warming science and projections.
3. **Bulletin insert** – This bulletin insert, printed two per page, is designed to be placed into your weekly bulletin for the Preach-In event. Please send this to the appropriate person ahead of time.
4. **Postcards** – These are designed to be printed on cardstock, double-sided, and then cut in half. Color and black & white versions are included.
5. **Film and discussion guide** – The film (*Fighting Goliath/Covenant*) and discussion guide are optional resources that you may request. Please let us know by Feb. 1<sup>st</sup>. The film describes the faith community's role in stopping a group of coal power plants slated to be built in Texas. It's a powerful tale about how a few committed citizens can make a difference. And it's only 40 minutes in length – perfect for a class or other event.
6. **Feedback form** – On February 16<sup>th</sup> we will send you a link to a brief online feedback form. We would appreciate your feedback on the event so we can make any improvements.
