

**WE CARE
FOR
CREATION**

#FAITHSFORTHEFUTURE

For reading at a climate strike event:

The mission of Interfaith Power & Light is to inspire and mobilize people of faith and conscience to take bold and just action on climate change. We join with and support the students who are leading climate strikes because we believe climate change is the greatest moral challenge of our time. We are called to protect the most vulnerable members of our society who are being harmed by climate change at home and around the world including low-income communities, communities of color, and future generations.

We are taking action in our homes and houses of worship to reduce our global warming pollution and we call for immediate legislative action to curb carbon emissions and care for those who suffer the most from the changing climate.

Let us pray:

Climate Blessing

We Hold the Earth

We hold brothers and sisters who suffer from storms and droughts intensified by climate change.

We hold all species that suffer.

We hold world leaders delegated to make decisions for life.

We pray that the web of life may be mended through courageous actions to limit carbon emissions. We pray for right actions for adaptation and mitigation to help our already suffering earth community. We pray that love and wisdom might inspire my actions and our actions as communities. . .

so that we may, with integrity, look into the eyes of brothers and sisters and all beings and truthfully say, we are doing our part to care for them and the future of the children.

May love transform us and our world with new steps toward life.
